

JOB SHADOWING AND STRUCTURED COURSE

At the end of the Erasmus+ KA1 project "T.O.E.F.L - Teachers and Others for English as a Foreign Language", intended for the mobility of school staff, there are numerous positive results recorded in terms of improving the educational offer of the institute, as well as significant positive effects in terms of growth of the professional skills of the teachers involved in the project.

As part of the project, three mobilities were carried out during 2022, which involved a total of 13 teachers!

The project, launched in 2020, suffered a stop due to the pandemic emergency. Despite the numerous logistical problems, the IC Corinaldo has still managed to guarantee primary and secondary school teachers an experience abroad of great cultural value and precious for their professional enrichment.
